PROFESSIONAL SUMMARY

Results-driven Technical Support Engineer with 3+ years of experience troubleshooting IoT systems, supporting cross-functional teams, and resolving complex infrastructure issues. Skilled in API testing, database validation, and structured documentation. Adept at bridging the gap between technical and non-technical stakeholders to drive system reliability and exceptional customer outcomes. Actively seeking a role where analytical problem-solving and continuous improvement create tangible impact.

CORE SKILLS & COMPETENCIES

Manual & Functional Testing	API Testing	Defect Tracking	MySQL / Databases
Version Control (Git)	SDLC & Agile	Debugging & Troubleshooting	SOP Documentation
IoT Systems Support	Cross-team Collaboration	UI/UX Understanding	Attention to Detail

PROFESSIONAL EXPERIENCE

Technical Support Engineer | M-Gas Limited

Aug 2022 – Mar 2026

- Delivered end-to-end support for IoT-based gas solutions, ensuring consistent device connectivity, data accuracy, and timely incident resolution for a growing customer base.
- Resolved 150+ system and device issues by applying structured debugging methodologies, collaborating with firmware engineers to implement lasting fixes.
- Performed data validation against internal databases, measurably improving the accuracy of system performance reporting.
- Authored structured SOPs and technical documentation, enhancing knowledge transfer and reducing recurring incident rates.
- Served as a key communication bridge between technical teams and non-technical stakeholders, translating complex issues into actionable updates.

Technical Support Intern | Western Seed Company Limited

Mar 2022 – Jul 2022

- Contributed to QA processes that reduced software bugs by 15% through rigorous test case execution and detailed defect reporting.
- Assisted in the development and deployment of a responsive web application using HTML, CSS, and JavaScript.
- Conducted performance profiling and optimization, improving system responsiveness by 20%.
- Participated in Agile sprint ceremonies including requirement reviews, daily stand-ups, and progress reporting.
- Supported secure infrastructure configuration, gaining practical exposure to security and performance testing practices.

IT Support Intern | Transnational Times Sacco

Mar 2021 – Jun 2021

- ▶ Handled 200+ technical support tickets, consistently delivering high-quality resolutions and building strong client relationships.
- ▶ Redesigned digital filing structures, improving data retrieval efficiency by 40% and reducing time-to-access for key records.
- ▶ Maintained meticulous records and documentation standards, ensuring audit readiness and operational continuity.
- ▶ Conducted system and inventory checks to ensure hardware and software accuracy and completeness.

EDUCATION & CERTIFICATIONS

BSc. Business and Information Technology

2017 – 2022

Taita Taveta University

Masterclass: Software Testing with Jira and Agile

Udemy

Be a QA Lead — Industry-recognized online certification
